

As a Concerned Citizen

I Support More Bridges across the Columbia River between Oregon and Washington in the Portland Metropolitan area. The lack of infrastructure is damaging to our economy, environment, livability, and safety. Two bridges across the Columbia River cannot handle local, regional, national, and international trade and transportation needs. **We Need a Third Bridge Now!**

For comparison, there are more than ten bridges across Willamette River and only two bridges across the Columbia River in the Portland metropolitan area. Additional bridges are necessary and prudent for current and future economic and transportation needs.

Comparison of River Crossings in Selected U.S. Metropolitan Areas of Similar Size

Metro Area	Population	Body of Water	Hwy Xings	Rail Xings
Norfolk	1.57 million	Hampton Roads/ Chesapeake Bay	4	0
Cincinnati	1.65 million	Ohio River	7	2
Kansas City	1.78 million	Missouri River	10	3
Portland-Vancouver	1.92 million	Columbia River	2	1
Pittsburgh	2.36 million	Three Rivers	>30	3
St. Louis	2.60 million	Mississippi River	8	2
